Re: Section 63.71 Application of Verizon Delaware LLC, Verizon Maryland LLC, Verizon New England Inc., Verizon New Jersey Inc., Verizon New York Inc., Verizon North LLC, Verizon Pennsylvania LLC, Verizon South Inc., and Verizon Virginia LLC

Dear Ms. Dortch:

The Verizon incumbent local exchange companies captioned above submit the enclosed Application for authority under Section 214(a) of the Communications Act and 47 C.F.R. § 63.71 to grandfather and discontinue Voice Grade / Voiceband Service, WATS Access Line Service, Digital Data Service, DIGIPATH Digital Service II, and Feature Group A (also known as "PagePath") service in multiple wire centers. A list of affected wire centers is included in the Application at Exhibit A.

Sincerely

A handwritten signature in black ink, appearing to be "Paul", written in a cursive style.

Enclosure

cc: Department of Defense Chief Information Officer
Governor of Each Impacted State
Public Utilities Commission of Each Impacted State

Service		

**SECTION 63.71 APPLICATION OF
VERIZON INCUMBENT LOCAL EXCHANGE COMPANIES**

The Verizon incumbent local exchange companies captioned above (collectively “Verizon”) submit this Application for authority under Section 214(a) of the Communications Act and Section 63.71 of the Commission’s rules to grandfather and discontinue Voice Grade / Voiceband Service, WATS Access Line Service, Digital Data Service, DIGIPATH Digital Service II, and Feature Group A (also known as “PagePath”) in 646 wire centers.¹ Today, there are relatively few customers still using these products, as customers continue to migrate away from these older services toward more modern options. We have a total of approximately 28 wholesale customers and 306 retail customers on these services across all of the affected 646 wire centers. Given the low numbers of subscribers and ongoing cost of supporting these

¹ A list of the affected wire centers is included at Exhibit A.

services, we plan to grandfather these services on or after December 17, 2019, in the specified wire centers. At that time, no new customers will be added and existing customers will be prohibited from making moves, adds, and changes. We plan to discontinue the services completely on or after August 31, 2020.²

Many customers in these areas have already made the decision to move either to our fiber-based services or to competitors' services; others are in the process of transitioning. During this transition, we have been working closely with our customers receiving service over copper facilities to discuss their existing services and their needs going forward. For the vast majority of our customers, such as those purchasing plain old telephone service, there has been a like-for-like, fiber-based service available for them, making this transition straightforward.

Consistent with Section 63.71(a) and (b) of the Commission's rules, Verizon provides the following information:

1. Name and Address of Carrier (47 C.F.R. §§ 63.71 (a)(1), (c)(2)):

Verizon Delaware LLC
901 Tatnall Street
Wilmington, DE 19801

Verizon Maryland LLC
1 East Pratt Street
Baltimore, MD 21202

Verizon New England Inc.
6 Bowdoin Square, 9th Floor
Boston, MA 02114

Verizon New Jersey Inc.
One Verizon Way
Basking Ridge, NJ 07920

Verizon North LLC
900 Race Street
Philadelphia, PA 19107

Verizon New York Inc.
140 West Street
New York, NY 10007

Verizon Pennsylvania LLC
900 Race Street
Philadelphia, PA 19107

Verizon South Inc.
22001 Loudoun County Parkway
Ashburn, VA 20147

Verizon Virginia LLC
22001 Loudoun County Parkway
Ashburn, VA 20147

² Modifications in service offerings for customers with existing contracts are subject to the terms of their contract or of the tariff.

2. Date of Planned Service Discontinuation (47 C.F.R. §§ 63.71(a)(2), (c)(2)):

Subject to the Commission's authorization, on or after December 17, 2019, Verizon will grandfather Voice Grade / Voiceband Service, WATS Access Line Service, Digital Data Service, DIGIPATH Digital Service II, and Feature Group A (also known as "PagePath") in the affected wire centers.³ At that time, no new customers will be added and existing customers will be prohibited from making moves, adds, and changes. We plan to discontinue the services completely on or after August 31, 2020.

3. Points of Geographic Areas of Service Affected (47 C.F.R. §§ 63.71(a)(3), (c)(2)):

Subject to the Commission's authorization, Verizon intends to discontinue the aforementioned services in the wire centers listed in Exhibit A.

4. Brief Description of Type of Service Affected (47 C.F.R. §§ 63.71(a)(4), (c)(2)):

The five services at issue here are:

Voice Grade / Voiceband Service uses dedicated lines to provide voice frequency transmission capability for connecting location-to-location or to the public network. Voice Grade / Voiceband Service terminations transmit in the nominal frequency range of 300 to 3000 Hz and may be terminated as analog two-wire or four-wire. Voice Grade / Voiceband channels are provided between customer-designated premises or between a customer-designated premise and a Verizon hub. Voice Grade / Voiceband Service is further described in Verizon's FCC Tariff No. 1, Sec. 7.2.3; FCC Tariff No. 11, Sec. 7.2.3; FCC Tariff No. 14, Sec. 5.2.1; and FCC Tariff No. 16, Sec. 7.5. The service is referred to as Voice Grade Service in Verizon's FCC

³ Please see Exhibit A for a list of the affected wire centers. Subject to the Commission's authorization, Verizon intends to file tariff revisions to effectuate the changes requested in this application.

Tariff Nos. 1 and 11 and interchangeably as Voice Grade Service / Voiceband Service in Verizon's FCC Tariff Nos. 14 and 16.

WATS Access Line Service provides voice frequency transmission capability for toll free calling in a limited geographic area. The service provides a customer-premise-to-customer-premise connection with the combination of WATS Access Connection, a dedicated channel between the customer's end user's premises and a WATS Serving Office equipped with a Switched Access Service arrangement. WATS Access Line Service is further described in Verizon's FCC Tariff No. 1, Sec. 7.2.3.1; and FCC Tariff No. 11, Sec. 7.2.10.

Digital Data Service provides duplex transmission of synchronous serial data at 2.4, 4.8, 9.6, or 56 Kbps. In addition, Digital Data Service is offered at speeds of 19.2 and 64 Kbps in the wire centers subject to Verizon's FCC Tariff Nos. 1, 14, and 16. The actual bit rate is a function of the channel interface selected by the customer. Digital Data Service is further described in Verizon's FCC Tariff No. 1, Sec. 7.2.8; FCC Tariff No. 11, Sec. 7.2.8; FCC Tariff No. 14, Sec. 5.2.9; and FCC Tariff No. 16, Sec. 7.10.

DIGIPATH Digital Service II is a channel for the simultaneous transmission of digital data at the rate of 2.4, 4.8, 9.6, 19.2, 56, or 64 Kbps. The actual bit rate is a function of the channel interface selected by the customer. DIGIPATH Digital Service II is further described in Verizon's FCC Tariff No. 11, Sec. 7.2.11.

Feature Group A (also known as "PagePath") service is a line-side connection that is used primarily for exchange access crossing state and/or LATA boundaries. Customers use Feature Group A service to establish a local seven-digit telephone number for call completion to and from a separate LATA. Feature Group A service is provisioned from the Verizon switched wire center. Feature Group A service is further described in Verizon's FCC Tariff No. 1,

Sec. 6.2.1; FCC Tariff No. 11, Sec. 6.2.1; FCC Tariff No. 14, Sec. 4.2.1(A); and FCC Tariff No. 16, Sec. 6.2.1.

Alternative Services and Products: Customers today can obtain alternative services and products from Verizon or other providers that may suit customers' needs depending on the customers' particular applications. Possible wholesale alternatives offered by Verizon include Wholesale Advantage or Resale, Fiber to the Internet Service, Transparent LAN Service ("TLS"), Private Internet Protocol Service, DS1 Service, and VoIP solutions such as SIP Gateway Service. Possible retail alternatives offered by Verizon include fiber-based voice services, Fios Internet Service, Switched Ethernet Service or Private Internet Protocol Service, DS1 service, LTE or machine-to-machine services through Verizon or Verizon Partner Program, and VoIP services including Business Digital Voice or Virtual Communications Express. Verizon will work with affected customers to find suitable alternative solutions.

5. Brief Description of the Dates and Methods of Notice to All Affected Customers (47 C.F.R. § 63.71 (c)(3)):

Verizon sent notices by U.S. Mail on or before August 14, 2019, to customers that currently subscribe to the affected services. Copies of the notices are attached as Exhibit B.

Verizon is sending copies of this Application by first class U.S. Mail to the governor and public utilities commission in each affected state, to federally-recognized tribal nations in the affected areas, and to the Department of Defense Chief Information Officer, as required by Section 63.71(a) of the Commission's rules.

6. Regulatory Classification of Carrier (47 C.F.R. § 63.71(c)(4)):

Verizon is classified for regulatory purposes under the Commission's rules as dominant with respect to the services to be discontinued.

CONCLUSION

Verizon respectfully requests that the Commission approve this Application.

Respectfully submitted,

William H. Johnson
Of Counsel

FCC Services to be Grandfathered and Eventually Discontinued in Select Areas

Dear Valued Customer,

Account Number: <BTN-Field2>

Circuit ID: <CKT_ID>

Verizon is engaged in a multi-year program to update select wire centers to all-fiber facilities; including the wire centers listed on **Attachment 1**. In order to complete this fiber initiative we must take steps to limit the number of circuits that are provisioned over the existing copper infrastructure. To that end, we plan to grandfather and eventually discontinue the following Interstate Special Access and Switched Access services in these locations:

Voice Grade / Voiceband Service which provides voice frequency transmission capability in the nominal frequency range of 300 to 3000 Hz. Voice Grade / Voiceband Service is further described in Verizon's FCC Tariff No. 1, Sec. 7.2.3; FCC Tariff No. 11, Sec. 7.2.3; FCC Tariff No. 14 Sec. 5.2.1; and in FCC Tariff No. 16, Sec. 7.5.

WATS Access Line Service which provides voice frequency transmission capability for toll-free calling in a limited geographic area. WATS Access Line Service is further described in Verizon's FCC Tariff No.1, Sec. 7.2.3.1; and FCC Tariff No. 11, Sec. 7.2.10.

Digital Data Service which provides duplex transmission of synchronous serial data at the rate of 2.4, 4.8, 9.6, and 56 kbps. In addition, Digital Data Service is offered at speeds of 19.2 and 64 kbps in the wire centers subject to Verizon's FCC Tariff Nos. 1, 14 and 16. Digital Data Service is further described in Verizon's FCC Tariff No. 1, Sec. 7.2.8; FCC Tariff No.11, Sec. 7.2.8; FCC Tariff No. 14, Sec 5.2.9; and FCC Tariff No. 16, Sec 7.10.

DIGIPATH Digital Service II which provides a channel for the simultaneous transmission of digital data at the rate of 2.4, 4.8, 9.6, 19.2, 56, or 64 kbps. DIGIPATH Digital Service II is further described in Verizon's FCC Tariff No.11, Sec 7.2.11.

Feature Group A (also known as PagePath) which provides a line-side connection that is used primarily for exchange access crossing state and/or LATA boundaries. Feature Group A (FGA) service is further described in Verizon's FCC Tariff No. 1, Sec. 6.2.1; FCC Tariff No. 11, Sec. 6.2.1; FCC Tariff No. 14, Sec. 4.2.1(A); and FCC Tariff No. 16, Sec 6.2.1.

According to our records, you currently subscribe to at least one of the services referenced above.

This letter is being sent to inform you of our plans for service discontinuance and to urge you to begin making arrangements to migrate applications that use these services to an alternative service or provider.

On or after December 17, 2019, subject to FCC approval, Verizon will stop accepting orders for these services if the circuit will originate or terminate in one of the **Attachment 1** offices. Moves and changes to existing circuits in these locations will not be allowed.

Verizon will begin disconnecting these circuits on or after **August 31, 2020**, again subject to FCC approval. We will provide you 90 days advance notice of the actual date for your service disconnection. Verizon may discontinue service before a term commitment expires and will waive early termination liability, if applicable.

Modifications in service offerings for customers with existing contracts are subject to the terms of their contract or of the tariff.

You may have received previous disconnection notifications for segments of this circuit at other locations. If you have a point-to-point service, the location with the earliest disconnection date will serve as the disconnection date for the entire point-to-point service.

In the interim, please take this time to review your application(s) that use these aforementioned services and consider whether you wish to migrate those applications to an alternative Verizon product or to another provider. We are happy to work with you to find alternative solutions. Verizon offers several alternatives to these services that may suit your needs, including:

- Fiber-based voice services
- Fios Internet Service
- Switched Ethernet Service or Private Internet Protocol Service
- DS1 Service
- LTE or Machine-to-Machine Services through Verizon or Verizon Partner Program
- VoIP Services including Business Digital Voice or Virtual Communications Express

We value your business and look forward to helping you realize the benefits that our advanced offerings can unlock for you. Please contact your Verizon Account Manager or call Customer Service at the toll-free number shown on your invoice to discuss alternative solutions.

Sincerely,
Verizon,

On behalf of:

FCC Required Notice: The FCC will normally authorize this proposed discontinuance of service (or reduction or impairment) unless it is shown that customers would be unable to receive service or a reasonable substitute from another carrier or that the public convenience and necessity is otherwise adversely affected. If you wish to object, you should file your comments as soon as possible, but no later than 30 days after the Commission releases public notice of the proposed discontinuance. You may file your comments electronically through the FCC's Electronic Comment Filing System using the docket number established in the Commission's public notice for this proceeding, or you may address them to the Federal Communications Commission, Wireline Competition Bureau, Competition Policy Division, Washington, DC 20554, and include in your comments a reference to the §63.71 Application of Verizon New England Inc.; Verizon New York Inc.; Verizon New Jersey Inc.; Verizon Delaware LLC; Verizon Maryland LLC; Verizon Pennsylvania LLC; Verizon Virginia LLC; Verizon North LLC and Verizon South Inc. Comments should include specific information about the impact of this proposed discontinuance (or reduction or impairment) upon you or your company, including any inability to acquire reasonable substitute service.

FCC Services to be Grandfathered and Eventually Discontinued in Select Areas

Dear Valued Customer,

Billing Telephone Number: <BTN-Field2>
Circuit ID: <CKT_ID>

Verizon is engaged in a multi-year program to update select wire centers to all-fiber facilities; including the wire centers listed on **Attachment 1**. In order to complete this fiber initiative we must take steps to limit the number of circuits that are provisioned over the existing copper infrastructure. To that end, we plan to grandfather and eventually discontinue the following Interstate Special Access and Switched Access services in these locations:

Voice Grade / Voiceband Service which provides voice frequency transmission capability in the nominal frequency range of 300 to 3000 Hz. Voice Grade / Voiceband Service is further described in Verizon's FCC Tariff No. 1, Sec. 7.2.3, FCC Tariff No. 11, Sec. 7.2.3, FCC Tariff No. 14, Sec. 5.2.1; and in FCC Tariff No.16, Sec 7.5.

WATS Access Line Service which provides voice frequency transmission capability for toll-free calling in a limited geographic area. WATS Access Line Service is further described in Verizon's FCC Tariff No.1, Sec. 7.2.3.1 and FCC Tariff No. 11, Sec. 7.2.10.

Digital Data Service which provides duplex transmission of synchronous serial data at the rate of 2.4, 4.8, 9.6, and 56 kbps. In addition, Digital Data Service is offered at speeds of 19.2 and 64 kbps in the wire centers subject to Verizon's FCC Tariff Nos. 1, 14 and 16. Digital Data Service is further described in Verizon's FCC Tariff No. 1, Sec. 7.2.8, FCC Tariff No.11, Sec. 7.2.8; FCC Tariff No.14, Sec 5.2.9; and FCC Tariff No. 16, Sec 7.10.

DIGIPATH Digital Service II which provides a channel for the simultaneous transmission of digital data at the rate of 2.4, 4.8, 9.6, 19.2, 56 or 64 kbps. DIGIPATH Digital Service II is further described in Verizon's FCC Tariff No.11, Sec 7.2.11.

Feature Group A (also known as PagePath) which provides a line-side connection that is used primarily for exchange access crossing state and/or LATA boundaries. Feature Group A (FGA) service is further described in Verizon's FCC Tariff No. 1, Sec. 6.2.1; FCC Tariff No. 11, Sec. 6.2.1; FCC Tariff No. 14, Sec. 4.2.1(A); and FCC Tariff No.16, Sec 6.2.1.

According to our records, you currently subscribe to at least one of the services referenced above.

On or after December 17, 2019, subject to FCC approval, Verizon will stop accepting orders for these services if the circuit will originate or terminate in one of the **Attachment 1** offices. Moves and changes to existing circuits in these locations will not be allowed.

Verizon will begin disconnecting these circuits on or after **August 31, 2020**, again subject to FCC approval. We will provide you 90 days advance notice of the actual date for your service disconnection. Verizon may discontinue service before a term commitment expires and will waive early termination liability, if applicable.

Modifications in service offerings for customers with existing contracts are subject to the terms of their contract or of the tariff.

You may have received previous disconnection notifications for segments of this circuit at other locations. If you have a point-to-point service, the location with the earliest disconnection date will serve as the disconnection date for the entire point-to-point service.

In the interim, please take this time to review your application(s) that use these aforementioned services and consider whether you wish to migrate those applications to an alternative Verizon product or to another provider. We are happy to work with you to find alternative solutions. Verizon offers several alternatives to these services that may suit your needs, including:

- Wholesale Advantage or Resale
- Fiber to the Internet Service
- Transparent LAN Service (TLS)
- Private Internet Protocol Service
- DS1 Service
- VoIP solutions such as SIP Gateway Service

We value your business and look forward to helping you realize the benefits that our advanced offerings can unlock for you. Please contact your Verizon Account Manager to discuss alternative solutions.

Sincerely,
Verizon
